

# PEG SOLITAIRE

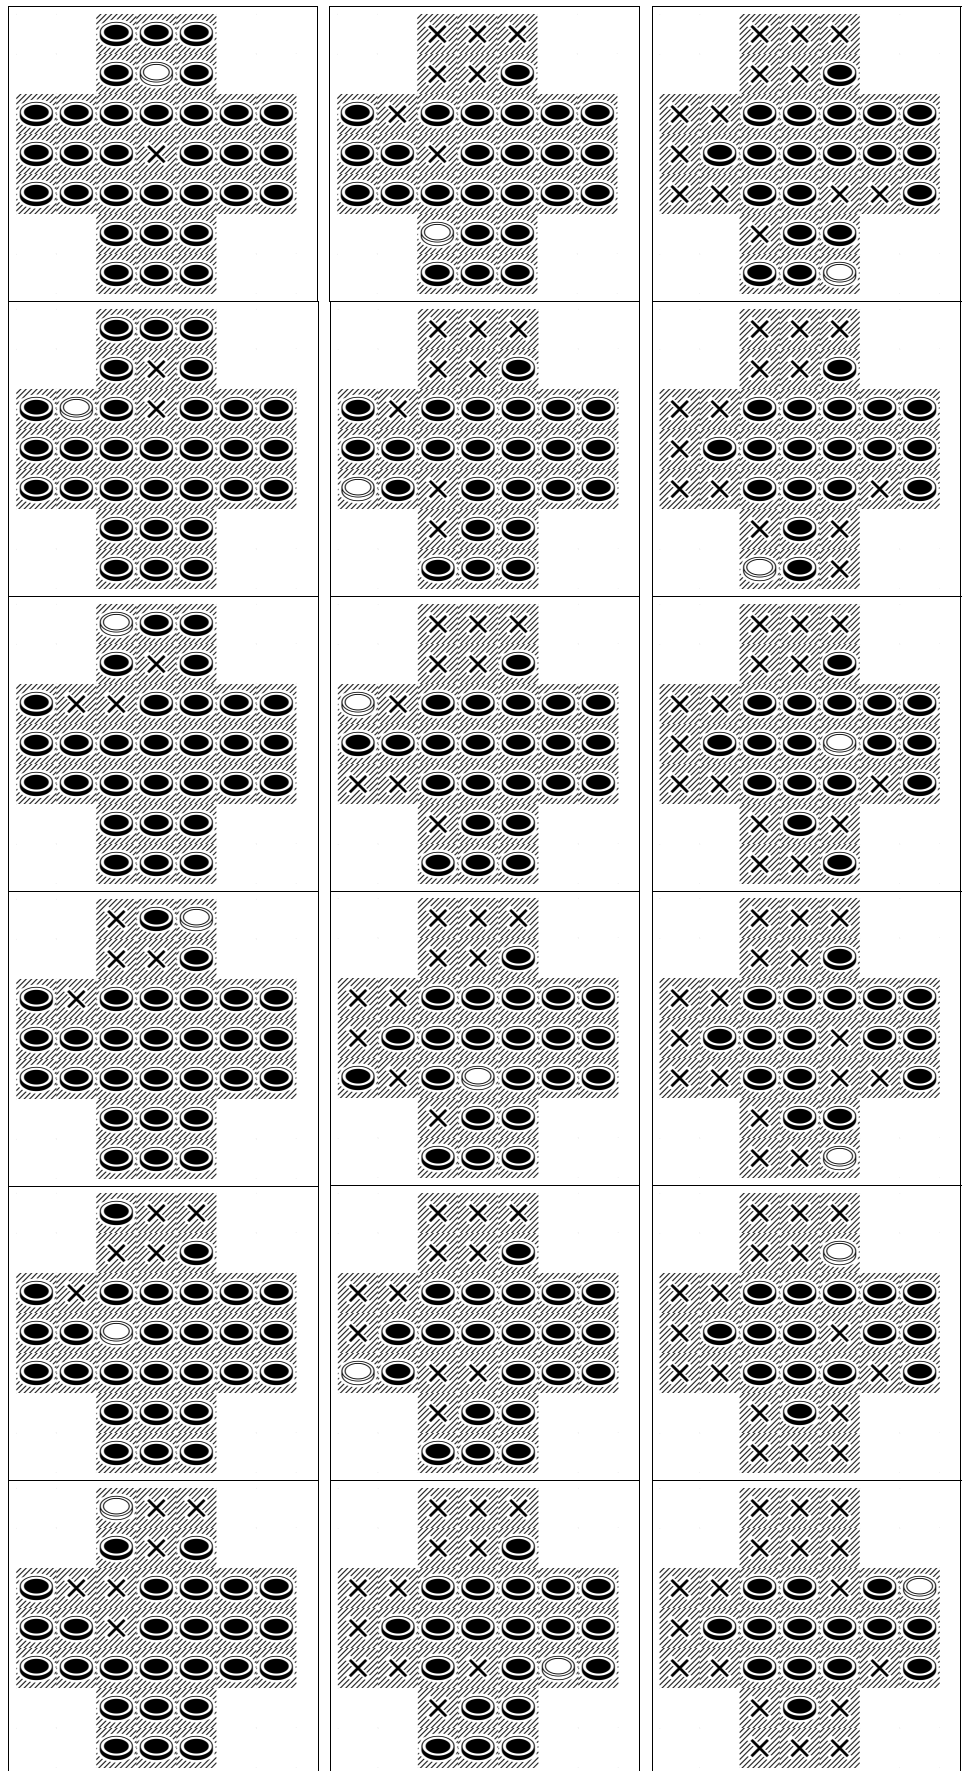

## SOLUTION

01 02 03  
 04 05 06  
 07 08 09 10 11 12 13  
 14 15 16 17 18 19 20  
 21 22 23 24 25 26 27  
 28 29 30  
 31 32 33

This is the neatest solution, and the easiest to remember, published by Bergholt in 1912. You clear an L shape four times, and then the central shape is mostly cleared in one big sweep. *I made this in 2006 and by 2012 I have lost track of where I stole it from.*
